COURSE DESCRIPTION

The Women in Surgery (WIS) Career Symposium is a professional and academic event dedicated to encouraging more women to pursue a career in Surgery and to foster the careers of women in Surgery. It promotes both personal and professional growth and is designed to foster mentorship as well as a peer network. It also provides a forum to discuss contemporary issues and opportunities for women who have chosen or may choose a career in Surgery.

Participants will be able to interact with women who are thought leaders in Surgery and pioneers in advancing women in Surgery.

The annual WIS career symposium serves as a forum to discuss the issues and challenges confronting women as they seek to advance in a changing but still male-dominated field and to share successes and advice for breaking the glass ceiling in Surgery.

Furthermore, the intention is to highlight the importance of advancing women toward careers in Surgery by providing meaningful avenues for surgical professionals and students to interact, exchange ideas, and formulate effective strategies in advancing this important endeavor.

OBJECTIVES

Upon completion of this symposium, participants will be able to:

- Learn about the future of healthcare and the practice of Surgery from baby boomers to generations x, y, and z.
- Actively seek out and improve upon existing mentor/mentee relationships
- Identify specific issues facing women in Surgery
- Cultivate techniques for handling discrimination in the workplace effectively and professionally
- Pursue leadership positions in Surgery
- Possess an understanding of the basic skills and requirements for pursuing leadership positions
- Identify where and why there is need for women in leadership roles
- Utilize professionalism in a discipline in which men are traditionally predominant
- Implement specific coping methods and networking skills to promote a career in a discipline in which men are traditionally predominant
- Better appreciate the need to negotiate "equal pay for equal work"
- Generate reasonable expectations regarding lifestyle in residency and early career
- Implement basic strategies for financial security
- Recognize issues with pregnancy during a surgical career
- Employ and optimize strategies for balancing children and marriage in the face of a demanding profession
- Acknowledge and help further the goals for the future of women in Surgery and be empowered to move toward those goals
- Determine which sub-specialty women surgeons most commonly pursue
- Summarize guidelines that will strengthen your professional image

TARGET AUDIENCE

This symposium is designed for women who may aspire for a career in Surgery or wish to enhance their career in Surgery. The target audience includes physicians, fellows, PA/ARNP, residents, medical students, graduate and undergraduate students, and other healthcare professionals.
